Champion Commons, Third Floor
Pittsburgh, PA 15213

TRUE/FALSE – Please indicate whether the statement below is true or false.

1. Youth with Attachment and Trauma issues create barriers to good relationships with staff through controlling and rejecting behaviors.
   A. True
   B. False

2. Secondary trauma refers to the second time a person experiences a trauma.
   A. True
   B. False

3. A consistent, structured schedule is NOT recommended for youth with behavior problems because it makes the caretaker too predictable and easy to manipulate.
   A. True
   B. False

4. Neglect and abuse can create a “phobic” response to future caretaker warmth and relationship intimacy.
   A. True
   B. False

5. Guilt is associated with a pervasive sense of worthlessness.
   A. True
   B. False

6. Youth with chronic abuse and neglect develop moral principles based on survival, such as “get what I can now because someone will take it away later.”
   A. True
   B. False

7. Healing therapies promote structure, emotional engagement, nurture, and challenges that facilitate growth.
   A. True
   B. False
8. Good intervention should start with the premise that it is crucial to help the child first, the caretakers must take care of their own needs through their family relationships or personal therapists.
   A. True
   B. False

9. Effective therapy will focus on emotional care before cognitive care and emotional regulation before reflection and problem solving.
   A. True
   B. False

10. Earning privileges slowly in clear steps can be an effective intervention approach for youth with attachment problems and defiant behavior.
    A. True
    B. False

11. Caring and effective caretakers never feel resentment or hate toward their foster or adoptive children.
    A. True
    B. False

12. A child with attachment disorder may reject affection from caring caretakers and even provoke caretakers into a rejecting response.
    A. True
    B. False
